

Mark Taylor  
Preston City Council

Dear Mark

**RE: Levelling up Fund Letter of Support.**

I am writing to confirm that the Football Foundation are, in principle, supportive of the project proposals outlined within the Councils Levelling up Fund application.

The projects highlighted have been identified within Preston City Councils Local Football Facility Plan (LFFP) as a priority for investment to address the local facility need.

The Councils securing of the main award will depend on a suitable level of football development outcomes being agreed for the site and completion of all necessary application paperwork. This is the subject of intensive work by all parties involved and will ensure that the project is recommended to our decision-making panel, which will provide the final decision on funding.

We look forward to supporting the Council with their grant funding application and developing this ambitious project for Preston City Council.

Should you require any further information do not hesitate to contact me.

Yours sincerely

Shaun Burke  
Senior Delivery Manager (North)  
Football Foundation
